

Support One Teacher, Save Two Students

Just Rs. 10,000 can save the Present of One Teacher and the Future of Two Students.

Teachers of Private Schools get Rs. 4000 to 15000 per month averaging about Rs. 10,000. Due to the Lockdown most teachers have not received their salaries for March and will not receive till August 2020 when the Schools reopen hopefully in July and the students pay their fees. **This will be 6 months without any salary and no bank balances or assets.**

Most do not have ration cards to access free rations and with sense of middle class dignity, they cannot reach out to others for help . **The Lockdown is literally killing them silently.**

On the other hand due to the projected economic recession and job losses, many students may be forced to drop out.

Proposal

Teachers are paid Rs. 10,000 as part of salary to survive with dignity this period of crises directly by COVA from the donations collected.

The school management pays the remaining salary when schools reopen and saves Rs. 10,000. In return the school allows **2 students to study free for a year for every teacher supported now.** Bright students from deprived backgrounds likely to dropout can be selected by a Committee of donors & management. MoU will be signed with all participating schools.

A win win situation for Teachers, Students , Management & Society

Yes, an allround multiplier and socially beneficial impact of your donations like never before!!! COVA will manage the process to ensure impartial, efficient and transparent implementation. Bank Account details are attached separately.
