

We the Peoples of Pakistan and India Demand that the Governments of Pakistan and India should :

1. Develop an institutionalised framework to ensure that continuous and uninterrupted talks between India and Pakistan take place regularly no matter what. Make dialogue uninterrupted and unintermittible.
2. Ensure that political leaders, diplomats and civil servants from both countries conduct talks on the sidelines of all international and multilateral forums.
3. Recognise that the Kashmir dispute above all concerns the lives and aspirations of the Kashmiri people, and work to resolve it through uninterrupted dialogue between all parties concerned.
4. Implement the 2003 ceasefire agreement between India and Pakistan.
5. Renounce all forms of proxy wars, state-sponsored terrorism, human rights violations, cross-border terrorism, and subversive activities against each other, including through non-state actors or support of separatist movements in each other's state.
6. Support and encourage all forms of people-to-people contact, and remove visa restrictions and discrimination faced by citizens of both countries. This must be further taken forward to allow visa-free travel between India and Pakistan.
7. Increase trade and economic linkages and cultural exchanges between India and Pakistan.

Further, we pledge to uphold the principles of impartial reporting and urge media houses on either side to prevent the growing militarisation of debate. We must act responsibly and stop broadcasting hate speech and creating public hysteria aimed at the other country and/or vulnerable communities.
