

## COVA Peace Network- Adopt a Destitute Rohingya Refugee Program

### Profiles of 130 Destitute Rohingya Refugee Families for Rations Support: 2024-25

COVA Peace Network started work with refugees in 2010 as the partner of UNHCR (United Nations High Commissioner for Refugees) when there were only 400 refugees in Hyderabad from 6 countries- including 40 Rohingya refugees from Myanmar. The genocides of Rohingya Refugees in Myanmar in 2011 and 2017 found a large influx and now there are around 2000 Rohingya Refugee Families comprising 8000 persons in Hyderabad living in pathetic conditions.

While many of the refugees are able to work and has also provided grants to about 300 families to start their small businesses to earn a living, there are always 130 to 140 families who are destitute and cannot earn a living on their own and even when some of them do some menial jobs, they earn between 2500 to 4000 per month that is grossly insufficient to survive as it also includes paying rent.

COVA Peace Network started identifying and supporting 80 such families in 2015 and the number has now grown to 136 destitute families in March 2024 comprising 77 widows, 31 single mothers, 10 elders, 3 physically handicapped, 2 orphans and 3 unmarried women and 10 chronically ill who cannot earn to survive on their own and need support.

There are another 100 destitute refugee families that are being supported by UNHCR and another NGO Khair Un Naas on a regular basis and so COVA has not included them in its list. All the three organisations providing regular support to destitute families exchange their lists on a regular basis to ensure that there is no duplication and all families in need can get support.

COVA undertakes review of its list every 4 months to see if any families are to be removed and if any new needy families are to be added. Removal from the list could be because of any of the following: the beneficiary has died, shifted to another city, another organization has started supporting them or single mothers have remarried. The list given below has details of 130 families that were surveyed and shortlisted by COVA till 20th March 2025. Some more families have applied and the list could go up to 140 families for 2024-25

Your donation of Rs. 25,000 (\$300) from Zakat, Sadaqua, bank interest, or general donation can help one destitute refugee family receive ration kits along with Rs. 500 in cash for sundry expenses every month. We appeal to you to adopt as many destitute refugee families as possible and share with your family and friends with recommendation to donate.

Indeed local poor need and deserve our support but there are following additional disadvantages faced by Destitute Rohingya Refugee Families:

1. They live in extremely deprived areas where most others- Rohingyas or Non Rohingyas - are also poor and cannot provide any help to them.

\*2. Local poor have support from families they have worked with or know local philanthropists that is not available to Rohingya Families.\*

3. Language Problem: most of them are not able to speak in any local language and so cannot approach others to seek help.

Please remember 140 Rohingya Refugee Families are awaiting your generosity and support to survive with dignity

S.No	Name of the Refugee	Camp No	No of Family Members	Destitution
------	---------------------	---------	----------------------	-------------
